ABOUT ME

As a 3D Motion Graphic Designer with a Master's degree in Architecture, I bring creativity and a strong design foundation to each unique project. My architectural background enhances my ability to visualize complex concepts and translate them into impactful 3D graphics. New challenges, whether understanding technology or mastering new software techniques, keep me engaged and on a path of constant learning. Staying current with rapid software advancements sharpens my skills and drives innovation in my work. Known for my up-to-date software expertise, strong work ethic, and inventive solutions, I also bring a problemsolving mindset and resilience under pressure. Outside of work, I enjoy running, exploring design and technology, traveling, and attending concerts, all of which inspire and energize me.

WORK EXPERIENCE

TECHNISCH BUREAU LINDHOUT

Woerden
Oct 2013 - Present

3D Motion Graphic Designer

full-cycle development of technical animations and visualizations for complex products, machinery, and processes. Oversaw the entire pipeline, from concept to delivery, with a specialization in applying physics for realistic product flows. Proficient in 3ds Max, Vray, TyFlow, and After Effects, continuously integrating advanced techniques to boost production efficiency and deliver animations with a contemporary, professional finish.

MICHEL MOOIJ ARCHITECTUUR

Woerden
Jan 2013 - Jan 2014

Architect

As an architect, I have managed diverse projects, including securing a building permit for a residential extension in Rotterdam, designing a renovation study for the clubhouse of athletics club AV Clytoneus in Woerden, and developing a layout study for beauty salon Puur in Woerden.

VERDEL INSTALLATIETECHNIEK

Woerden
Jun 2007 - Feb 2011

Werkvoorbereider

As a work planner, I conducted heat loss calculations and, based on these, provided tailored heating solutions for residential projects. I also created detailed heating system drawings for installers, ensuring efficient and accurate implementation.

INTERNSHIPS

OOK ARCHITECTEN
Amersfoort
Feb 2008 - Aug 2008

Graduation Research

For my graduation research, I studied the redevelopment of five vacant office buildings along the Stadsring in Amersfoort. The project focused on finding practical solutions to repurpose these buildings for new uses. This included exploring options for housing and other urban functions.

JAN JONKERS ARCHITECTEN
Zeist
Sep 2006 - Aug 2007

Architectural Draftsman

Completed an internship as an Architectural Draftsman at an architecture firm, focusing on both design and technical detailing. Actively contributed to the development of an office building project in Utrecht, including drafting detailed plans. Additionally, supported the design and technical execution of a retail interior project in Beijing, collaborating on layout concepts and material specifications.

HEIJMERINK TBI BOUW
Utrecht
Jan 2006 - Aug 2006

Assistant Construction Manager

Performed quality inspections on completed components of the office building. Collaborated with the Construction Manager to provide technical solutions and ensure project standards were met.
